**Enhanced Website Features Benefit Tens of Thousands of Arizona  
Real Estate Licensees**

PHOENIX – Nearly 82,000 current Arizona real estate licensees and candidates benefit today from improved online resources that make it easier to search and register for continuing education and licensing requirements. Availability and access to knowledgeable, licensed real estate professionals helps Arizona home buyers and businesses find and purchase the properties they want, which in turn supports Arizona's recovering real estate market.

ADRE staff expanded the Online search as follows:

- Added functions to allow a licensee to enter keywords such as "Property Management" or "Prelicensing" to search all related courses; and
- Added drop down tabs to display all categories available to a licensee searching for courses to get licensed and enter the business, or to complete Continuing Education (CE).
