The Committee is expected to submit their recommendations to Commissioner Lowe for review and consideration by early summer.

In July 2018, ADRE will schedule an industry stakeholder meeting with groups to review the recommended changes to the real estate salesperson pre licensing for input and feedback, for ADRE consideration, prior to finalization by ADRE.

In addition to other changes, Commissioner Lowe is adopting the following workgroup recommendations:

- Modified attestations for the school administrator and instructor(s) on the certification applications, with an emphasis on Arizona specific content;
- Adding deterrence language in the attestation from each student as part of the current security measures/protocols to discourage students from taking a distance learning course for another licensee (impersonation);
- Adding an online Course Survey, completed by each student at the end of each course, just prior to issuance of student certificates, submitted to ADRE, as a means to measure the quality of education.

➤ Implementation of Adopted Distance Learning Continuing Education Recommendations

A new Distance Learning Continuing Education Approval Application and revised Course, School and Instructor Approval Applications will include the above changes and will soon be posted for all original and renewal courses, school and instructor applications. Please check the ADRE website, <http://www.azre.gov> to assure all applications are submitted on the most current, and correct form.

➤ New Online Pre licensure Education

Effective January 1, 2019, new legislation allows applicants for a real estate salesperson's or broker's license to complete the applicable required training course through an "online course" (defined) if offered by a real estate school certified by the ADRE. Applicants will be required to complete an examination on the pre license course in person.

Updates related to the implementation of this legislation will be available on the ADRE website and communicated to ADRE approved real estate schools. This legislation will take effect on January 1, 2019. Click on [HB 2655](#) to view the legislation. *HB 2655 was signed by the Governor on May 16, 2018. A.R.S. Titles Affected: 32*

Online Pre License Course Approval Applications may not be filed with ADRE prior to January 2, 2019.

ADRE appreciates your patience during the implementation process. The implementation process should be similar to the very successful implementation of the Broker Management Clinic legislation and Distance Learning Guidelines Substantive Policy Statement which many of you, participated in by providing valuable feedback and recommendations.

ADRE has had numerous inquiries on this new legislation (HB2655) from Arizona educators, individuals from other states, and even inquiries from individuals in other countries, regarding certification to offer online real estate pre licensing courses for Arizona.

ADRE is proud of Arizona's outstanding professional real estate education and the education industry's participation and efforts to continue to offer quality real estate educational courses, while exploring opportunities with this new legislation!

What to expect over the coming months for online pre license education:

- More school notices in this venue on upcoming changes, etc.
- Online Pre license Course guidelines/clarifications (Substantive Policy Statement(s) and/or Rules);
- Frequently Asked Questions and Answers posted on ADRE website, www.azre.gov.

Commissioner Lowe extends her sincere gratitude to the ADRE Distance Learning Continuing Education Workgroup and the ADRE Pre licensure Review Committee, for their extensive time and work dedicated to their respective charges. The time and dedication given by this multi-talented group of professionals exemplifies their support of ADRE's mission to increase the knowledge level and raise the bar, through education of the real estate licensee.
