ADDITIONAL INFORMATION

Pursuant to A.R.S. § 32-2130, an active licensee must sever from the employing brokerage before requesting inactive status. On forms prescribed by the Commissioner, the eligible licensee may then request the Department inactivate the licensee's current license for a period not to exceed 15 years. A license in an inactive status is not required to complete continuing education credit hour requirements until such time that the licensee applies to return their license to active status. Inactive status shall not relieve the licensee from renewing and paying the required fees.

The items below are included as part of a Draft Rule - Subject to Change

Failure of an inactive licensee to pay the required renewal fee and to renew will result in the expiration of the license. An expired inactive license will remain expired for one year and may be renewed within that year to return to inactive status. The department shall terminate an inactive license that has been expired for more than one year.

An inactive licensee must not act directly or indirectly in a transaction without informing the other parties in the transaction, in writing and before the parties enter any binding agreement, of a present or prospective interest or conflict in the transaction, including that the:

1. Inactive salesperson or broker has a license and is acting as a principal; or
2. Inactive licensee, or a member of the inactive licensee's immediate family, has a financial interest in the transaction.

The inactive status of a license does not prevent the Commissioner from taking any disciplinary action against the licensee for any of the grounds stated in this chapter.

A license that is not suspended or revoked and that is inactive may be reactivated as an active license on thirty days' written notice to the Department on forms prescribed by the Commissioner. With the exception of subsection e., a licensee must submit evidence of completion of the following number of continuing education credit hours taken not more than 12 months prior to applying for reactivation:

- 1) If inactive for less than three years, a licensee is required to complete the same number of continuing education hours as provided for in A.R.S. § 32-2130.
- 2) If inactive for more than three years but less than six years, a licensee is required to complete 6 hours of the continuing education hours in addition to the:
 - a) 24 continuing education credits hours required if the license were not inactive for a salesperson, or;
 - b) 30 continuing education credit hours required if the license were not inactive for a broker or licensee reactivating with delegated authority.
- 3) If inactive for more than six years but less than ten years, a licensee is required to complete 15 hours of the continuing education hours in addition to the:
 - a) 24 continuing education credits hours required if the license were not inactive for a salesperson, or;
 - b) 30 continuing education credit hours required if the license were not inactive for a broker or licensee reactivating with delegated authority.
- 4) If inactive for more than 10 years but less than 15 years, a licensee is required to complete 30 hours of the continuing education hours in addition to the:
 - a) 24 continuing education credits hours required if the license were not inactive for a salesperson, or;
 - b) 30 continuing education credit hours required if the license were not inactive for a broker or licensee reactivating with delegated authority.

As approved by the Commissioner, additional hours as provided for in paragraphs b., c., and, d. may not be required for an inactive licensee who has worked continuously within the real estate industry where a license was not required or the individual was required to have an inactive license or they worked continuously within government regulation or policymaking within real estate, or a related field. To apply for the waiver under this paragraph, the inactive licensee must submit a waiver on forms prescribed by the Department.

An examination may not be required to reactivate an inactive license if reactivated less than 15 years after changing to inactive. If the license is not reactivated within 15 years, a new application for licensure must be made meeting the statutory qualification requirements for the license being applied for, to include completion of prelicensing education and successful passing of the state required examination.
